Academic Information

Course catalogue

www.courses.uzh.ch

A guide in English on how to use the course catalogue and the module booking tool is provided on the following website: www.oec.uzh.ch/en/incoming.

The course catalogue provides important information about the course, including general course descriptions, course dates, class rooms and exam dates.

Seminars are modules with a limited number of participants and special entry requirements. Students should always check the course catalogue and the website of the professor for more information. Students should book modules according to their level of studies.

Students may choose to enroll in two courses offered by other faculties or ETH.

Information on the module booking tool, the module booking period and more useful information about the process is available at

www.oec.uzh.ch/en/booking.

ECTS Credits

1 ECTS credit is equivalent to a workload of 30 hours (including attendance in courses, self-study, preparing for and taking examinations). Full-time studies correspond to 30 ECTS credits per semester.

Language requirements

Students should be able to proof proficiency – at least level B2 of the Common European Framework (CEFR) – in either German or English, depending on the language of instruction in their classes. It is primarily the partner universities' responsibility to nominate students with appropriate language skills.

Language courses

Students can participate in an intensive German course that takes place two weeks before the beginning of the semester. Other courses are offered during the semester. The application deadlines are binding and the number of participants is limited.
